

We are a globally operating family business in horticulture and are looking to strengthen our team with a

Skilled worker / technician (m/f) In-Vitro Laboratory

full-time with immediate effect.

We offer a challenging job in a permanent position. Absolute trustworthiness and loyalty are required.

Responsibilities:

- Plant tissue culture, variety depot maintenance and care
- Establishment of in-vitro cultures using meristem extraction
- Organization, implementation and control of production orders
- Culture media production and management
- Co-operation with breeding and production departments
- Research and development in the field of culture media and new cultures

We offer:

- a permanent and secure employment relationship
- Performance-related remuneration depending on qualifications and experience
- A diversified and responsible field of activity
- a pleasant, collegial working atmosphere

Prerequisite:

- Skilled worker with good qualifications in biology / plant technology or comparable training
- Laboratory experience or comparable (work under hygiene-controlled conditions)
- Several years of experience with in vitro plant production desirable
- Careful way of working paired with analytical thinking and long-term planning ability
- Fluency in German, knowledge of English is an advantage
- Willingness to perform, adaptable, plant-loving
